## CAREER OBJECTIVE

Computer Science undergraduate at KL University with strong foundations in programming and web technologies. Passionate about building scalable software solutions and solving real-world problems through code.

## EDUCATION

### B.Tech in Computer Science & Information Technology

#### KL University, Hyderabad

2024 - 2028

Relevant Coursework:

- Programming Fundamentals
- Data Structures
- Introduction to Computer Science
- Web Development

## PROJECTS

### Government Scheme Eligibility Predictor

#### Team Project

2025

- Developed eligibility prediction logic for government welfare schemes
- Implemented scheme filtering based on age, income and category
- Collaborated using GitHub version control

### Task Manager Web Application

#### Full Stack Project

2025

- Built a task management system with CRUD functionality
- Implemented database integration and backend logic

### Personal Portfolio Website

#### Web Development Project

2024

- Developed responsive portfolio using HTML, CSS and JavaScript
- Implemented modern UI design and animations

### CGPA Calculator

#### Academic Project

2024

- Built a web application to calculate semester CGPA
- Implemented grade calculation logic using JavaScript

## TECHNICAL SKILLS

Python

JavaScript

HTML5

CSS3

React.js

Bootstrap

Tailwind CSS

MongoDB

MySQL

Git

GitHub

VS Code

Postman

Figma

## CERTIFICATIONS

### AWS Certified Cloud Practitioner

#### Amazon Web Services

Global Certification

- Understanding of AWS cloud architecture
- Knowledge of core AWS services and deployment models

### Microsoft Certified: Azure AI Fundamentals (AI-900)

#### Microsoft

Global Certification

- Fundamentals of Artificial Intelligence and Machine Learning
- Knowledge of Azure AI services and responsible AI concepts

## ACADEMIC INTERESTS

- Artificial Intelligence and Machine Learning
- Cloud Computing
- Web Application Development
- Software Engineering
- Data Structures and Algorithms

## READING INTERESTS

- Technology blogs and programming tutorials
- Research articles on Artificial Intelligence
- Books on software development and problem solving
- Articles and case studies on emerging technologies

## INTERNSHIP

---

### Web Development Intern

#### Oasis Infobyte

📁 Remote

- Developed responsive landing pages using HTML, CSS and JavaScript
- Improved debugging and frontend workflow

## HOBBIES

---

- Exploring new programming technologies
- Participating in coding challenges
- Reading technology blogs
- Playing strategy and logic-based games

## STRENGTHS

---

Problem Solving

Quick Learner

Teamwork

Communication
